Important all-staff announcement

SI & CP to merge with CI

What you need to know: The Strategic Initiatives and Community Partnerships Department is merging with the Community Investment Department. The new community-facing department will better facilitate our community impact work and allow for greater collaboration between these two teams. The scope of some roles will change, a new Senior Vice-President and Vice-President will be hired, and new cross-functional teams on youth, newcomers, neighbourhoods and agencies will be formed to make this new department as effective as possible.

Next steps: Staff changes will take place between now and Spring 2012. You will begin to see those changes take effect over the next few months. The name of the new, merged department will be announced shortly.

Background: For more information on these changes, read this [article in Way In](#) or check out our latest [organizational chart](#).
